

Our Story

Our journey in the PET packaging industry began in 2005 through Arab PET, driven from day one by a vision to deliver innovative and reliable PET packaging solutions that meet market demands and align with our clients' ambitions. We believe that our story is not ours alone—it reflects the success stories of the brands we serve. We take pride in carrying the responsibility of packaging our clients' products with the highest standards of quality, durability, and trust.

As part of our business evolution, the Aqua Pura brand was launched in 2007, followed by a major milestone in 2017 with the establishment of Plastic Home Group (PHG)—a strategic integration of Arab PET and Aqua Pura—forming a unified entity capable of providing a full ecosystem of filling and packaging solutions under one group.

Our Mission

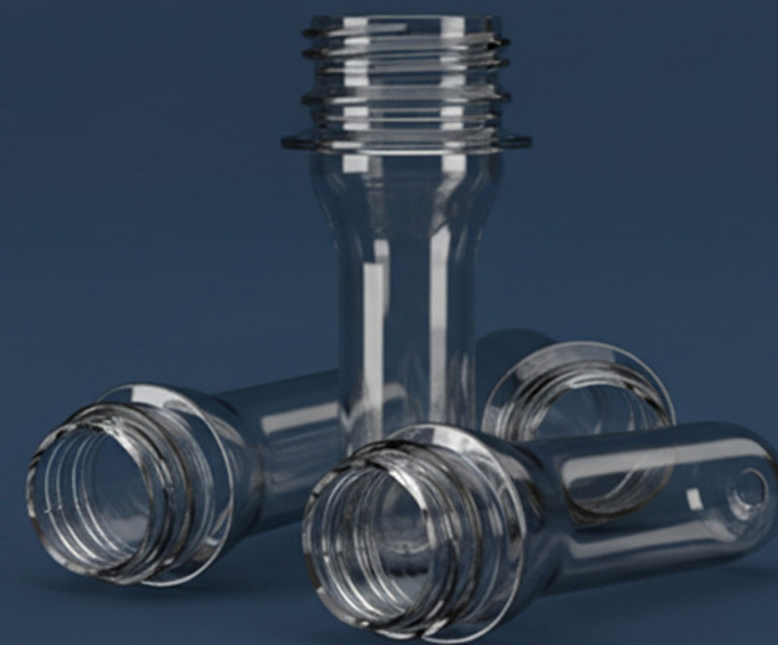

We are committed to manufacturing and delivering products using the latest technologies and most advanced production methods, ensuring premium quality and reliability. Our mission is to provide comprehensive packaging solutions that add real value to our clients' brands, preserve product integrity, and give every product the quality and lifespan it truly deserves.

Aqua Pura delivers integrated solutions for plastic water bottles while maintaining the highest global quality standards, providing safe, practical, and trusted products that serve both local and international markets efficiently.

Arab PET specializes in producing PET preforms using cutting-edge manufacturing technology, offering high-quality and highly dependable products that support modern filling requirements and strengthen the market presence of our clients' brands.

Is to produce & serve using high technology to make high quality & reliable products & service for “packing your brand with our preform of life .
